### **Busch Presents Solutions for Processing at the 2017 Process Expo in Chicago**

At this year's Process Expo, held in Chicago (IL) on September 19 - 22, we will be focusing on our highly reliable R 5 rotary vane vacuum pumps, a proven vacuum pump of choice for food processing machinery and applications. We will also be highlighting Genuine Spare Parts from Busch and how our spare parts optimize efficiency and productivity.

Process Expo is organized by the Food Processing Suppliers Association (FPSA), and brings together food and beverage processors, equipment manufacturers and leaders in the processing field bi-annually to share ideas and learn about the latest trends in the field.

We offer the widest range of vacuum technology solutions in the industry, including COBRA dry vane vacuum pumps, Dolphin liquid ring vacuum pumps, Mink dry claw vacuum pumps and Panda vacuum boosters. Booth visitors will also have the opportunity to learn more about the efficiencies that can be achieved with our centralized systems.

Our vacuum experts will be speaking on the appropriate sizing and selection of vacuum technologies for your application on Thursday, September 21 at 9:30 am in the Food Safety Theater onsite.
